

GLOBAL EAST ASIA TECHNOLOGY CO.,LIMITED
<http://www.global-antenna.com>

Power Converter	
GL-DY001	
Application:the automotive electrical network to power devices with 12-volt power This leads to an increase in battery life and uninterrupted power supply	
Index	
Min input voltage-V	12
Max input voltage-V	32
Rated input voltage-V	24
Number of outputs-pcs	1
Maximum output current A	0.8
Power-W	10
Noise at the exit - mV	100
Insulation Voltage- V	3000
Operating temperature °C	-40~85
Design	Open Frame DC-DC
Output voltage-V	12
Energy Conversion Efficiency (Efficiency)-%	78
Cable-m	20AWG,2m
Dimension-mm	58.8*25.3*16.5
